STEM LAB NOTEBOOK

Printable · GoodNotes · Notability

- Scientific method experiment logs
- Data tables, graph paper, observation pages
- Chemistry, Physics & Biology sections
- Hyperlinked index & side tabs for iPad
- Undated · reuse and duplicate forever

Tip: In GoodNotes or Notability, tap any row above or a side tab to jump.
Duplicate any page as many times as you need ? the notebook is undated.

Five ways to get the most from this notebook.

01 Print

Print on letter paper (8.5 × 11 in). Double-sided is optional. Three-hole punch or spiral-bind for a durable lab book.

02 Digital on iPad

Import the PDF into GoodNotes, Notability, or any PDF app. Tap the Index or side tabs to jump. Duplicate pages for each new run.

03 Experiment log

One full scientific-method template per page: title, date, hypothesis, materials, procedure, observations, data, conclusion, and next steps.

04 Data & graph

Use Data Table pages for raw numbers; graph paper for plots and sketches. Observation pages combine notes with drawing space.

05 Subject sections

Chemistry (structures + notes), Physics (equations + free-body space), and Biology (observation + diagram). Switch with the side tabs.

Title _____ **Date** _____

Lab / course _____ **Partners** _____

1 Hypothesis / question

2 Materials and equipment

3 Procedure

4 Observations

5 Data / results

6 Conclusion and next steps
