MathRelaxing Atelier Resume Kit

How to use — expanded edition

Choose a layout

Atelier — centered, letterspaced name, double gold rules. Most elegant for email PDFs.

Gallery — left-aligned modern with gold top bar. Strong for product/design-adjacent roles.

Manuscript — literary centered classic. Quiet authority for research/writing-forward roles.

Architect — geometric, asymmetric weight. Bold modern presence.

ATS — single-column Calibri for online portals that strip design.

Atelier background styles

Open any **Atelier_Style_*** file to get cream paper + a semi-transparent plate already behind the text: Cream Veil, Scientific Grid, Gold Geometry, Phi Whisper, Navy Edge. Use SAMPLE files as visual guides, then edit the TEMPLATE.

Application set

Cover letter · References · Thank-you note · LinkedIn pack (headline + About) · Portfolio one-pager. Match tone across all files.

Workflow

1) Fill Guest persona fields in SAMPLE to learn rhythm.
2) Duplicate TEMPLATE and replace placeholders.
3) Export PDF from Word for email applications.
4) Use ATS file only for portals.
5) Paste LinkedIn pack into your profile.
